

Reality Town

Thank you to all those who have volunteered to help with our Reality Town Activity!

We are still in need of 50 more volunteers. If we do not receive enough volunteers we may have to cancel this activity.

This is a 9th grade activity; however, you do not have to have a 9th grade student to volunteer. Reality Town is a real-world simulation where students learn budgeting and money management skills. Their salaries and career choices are based on a combination of their personal interests as well as their cumulative GPA.

It is a fun activity but many volunteers are needed to run it. If you are available the morning of **Thursday November 14th** and are willing to help please sign up here: <http://bit.ly/RealitytownSignUp> or you may call the Counseling Center. Thank you!
